

Murid herpesvirus-4 (MuHV 4) Antibodies

A large portfolio of mouse monoclonal antibodies raised against Murid herpesvirus-4 (MuHV 4) has been developed at the University of Cambridge. Antibodies have been raised to target a wide range of epitopes.

These antibodies have been described in:

[J Virol. 2004, 78\(23\),13370](#)

[PLoS One. 2007, 2\(8\), 705](#)

[J Virol. 2007, 81\(1\), 280](#)

[J Gen Virol. 2009, 90,1202](#)

[J Virol. 2010, 84\(20\), 10937](#)
